1. [redacted] Comment.

Frankfurt/Oder include the supply shipments from the USSR, as a Soviet dispatch office is stationed in Frankfurt/Oder. [redacted] the volume of Soviet supply traffic directed through Frankfurt/Oder was higher than stated in the report. [redacted] Although, because of technical difficulties, the loadings of only 15 railroad stations in the Berlin railroad district were covered in September, these railroad stations are the most important and, carry the bulk of Soviet military supply shipments. Of the fifteen stations, 13 were also covered during the preceding month. A comparison showed a general increase in the volume of loadings. Supply traffic increased at the railroad stations of Dallgow, Frankfurt/Oder, Muellrose and Neuruppin. It remained about constant at the stations of Jueterbog, Jueterbog-Altes Lager, Kummersdorf and Satzkorn, while it decreased at the stations of Bad Saarow, Kirchmoeser, Koenigswusterhausen, Velten and Wuensdorf. In September, 2,159 cars were loaded at 15 railroad stations, compared with 2,026 shipments loaded at the same stations in August. [redacted] It is believed that the situation at railroad stations which were not covered in the present report was about the same. This justifies an estimate of about 3,100 loaded cars in the area of the Berlin railroad district. This volume of military supply traffic is considered normal.

2. [redacted]

3. [redacted] The shipments to Oranienburg included armored personnel carriers, armored scout cars and motorcycles. [redacted]

4. [redacted] Comment. The names mentioned belong to supply officers who, because of security reasons, are listed as receiver. The names of Zhebonaov (fnu), Rozovayev (fnu), Zareda (fnu), Vorodin (fnu), Klosov (fnu), Astalenkov (fnu) and Guitra (fnu) are reported for the first time. The other officers are known.
